

April 30, 2010

To whom it may concern,

I write this letter as a professional reference for Peter Wright who was employed with us for our work on the 2010 Winter Olympic Games from fall of 2009 until this past spring.

Peter's role with Whistler Cooks Catering Company was in the capacity of Executive Chef. In this role he proved to be incredibly capable in the challenging and fast moving environment of the Winter Olympics.

In the winter of 2009/2010 Whistler Cooks Catering went from handling catering for a myriad of groups generally smaller than five hundred guests to catering almost half a million meals in a month during the 2010 Winter Olympics games at four venues in Whistler Olympic Park, Whistler Sliding Centre and Whistler Celebration Plaza and also Whistler Remote Vehicle Screening . This growth created a lot of work opportunity for everyone of our staff and Peter definitely relished the challenge as a Executive Chef. Peter proved to be of excellent character and also quite enjoyable to work with. Peter's leadership and work ethic led a team of 250 chefs and culinary staff with fantastic success and everyone in this department enjoyed a terrific games and work experience.

I should also note that Peter never missed a day of work, and worked some almost superhuman hours for almost a month during the games. Effortlessly he continued to lead by great example every one of those days.

The Olympic project afforded Whistler Cooks Catering Company the opportunity to work with many great people for a finite period of time and unfortunately Peter was no exception. We sadly had to say farewell to Peter at the end of March 2010 giving Peter the chance to find new challenges in the Food and Beverage industry. Peter completed work here on very good terms and I hope he is given every consideration for the position to which he applies.

Sincerely,

Grant Cousar

Project Director/Owner

Whistler Cooks Catering Company.

Venue Caterers for the 2010 Vancouver Winter Olympic Games
